## OVERSIGT

Denne vejledning beskriver de trin, som en wi-fi-installationsvirksomhed skal følge for at angive oplysninger og indsende installationsrapporten. Ved at indsende installationsrapporten erklærer wi-fi-installationsvirksomheden, at installationen er fuldført, og at den opfylder de tekniske krav, der er fastlagt i bilag I til WiFi4EU-tilskudsaftalen.

Installationsrapporten indeholder samtlige tekniske oplysninger om WiFi4EU-netværkene og hvert adgangspunkt. Wi-fi-installationsvirksomheden angiver alle oplysningerne i installationsrapporten på WiFi4EU-portalen, og den godkendes af kommunen/modtageren af gavekortet. Indsendelse og godkendelse af installationsrapporten er en forudsætning for udbetaling af gavekortet.

## ARBEJDSGANG

1. Wi-fi-installationsvirksomheden indsender installationsrapporten gennem WiFi4EU-portalen, og kommunen får besked via e-mail, om at installationsrapporten er klar til at blive godkendt af dem på WiFi4EU-portalen.
2. Kommunen godkender installationsrapporten på portalen ved at bekræfte, at alle de oplyste adgangspunkter rent faktisk findes og er placeret i overensstemmelse med de angivne GPS-kordinater.
3. INEA har 60 dage efter kommunens godkendelse af installationsrapporten til at:
  - sikre, at installationen overholder art. 4.2. i tilskudsaftalen (dvs. at der er et fungerende netværk, at WiFi4EU-logoet er vist korrekt, etc.)
  - foretage betalingen. Hvis kravene i tilskudsaftalen ikke er overholdt, suspenderes betalingsanmodningen til det er sikret, at alle krav er overholdt.

# ANGIVELSE AF OPLYSNINGER OG INDSENDELSE AF INSTALLATIONSRAPPORTEN

## ANGIVELSE AF OPLYSNINGERNE I INSTALLATIONSRAPPORTEN

Installationsrapporten indeholder samtlige tekniske oplysninger om WiFi4EU-netværkene og hvert adgangspunkt. Et netværk kan være vært for alle adgangspunkterne, uanset udbyderen af internettjenester eller adgangspunktets IP-adresse.

Selvom en wi-fi-installationsvirksomhed kan vælge at anvende adskillige netværk og dele minimumsantallet af adgangspunkter mellem adskillige netværk, så anbefales det af følgende grunde kraftigt, at en wi-fi-installationsvirksomhed anvender så få netværk som muligt:

- a) Net, der omfatter et lille antal adgangspunkter, er tilbøjelige til kun at indfange et meget lille antal forbindelser om ugen, hvilket udløser automatiske advarselsmeddelelser via WiFi4EU's fjernovervågningssystem.
- b) Hvert enkelt WiFi4EU-net, der etableres, skal forbindes til forskellige captive portals, og dette øger de samlede drifts- og vedligeholdelsesomkostninger.

Ikke desto mindre kan det være nyttigt for en kommune at etablere flere net (dvs. en opdeling af minimumsantallet af adgangspunkter mellem flere net), hvis den anser det for væsentligt, at dets digitale tjenester fremmes på separate startside (captive portal). En kommune kan for eksempel have et net med adgangspunkter på rådhuset/andre offentlige bygninger, som tilbyder e-forvaltningstjenester til lokale borgere samt et andet net med adgangspunkter på sit turistkontor/andre kultursteder, som er rettet mod eksterne gæster.

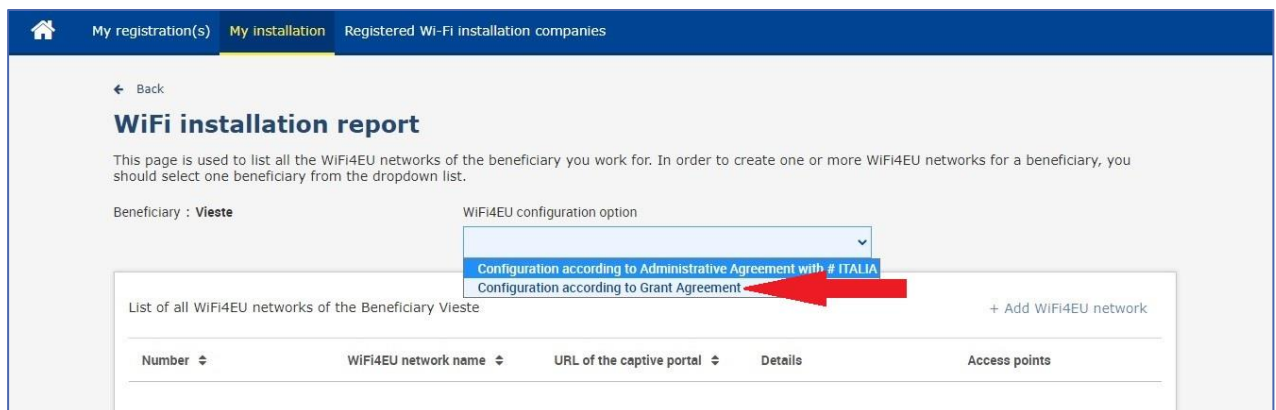

## PROCEDURE

Wi-fi-installationsvirksomheden angiver netværksoplysningerne på fanen "My installation" (Min installation) på WiFi4EU-portalens.

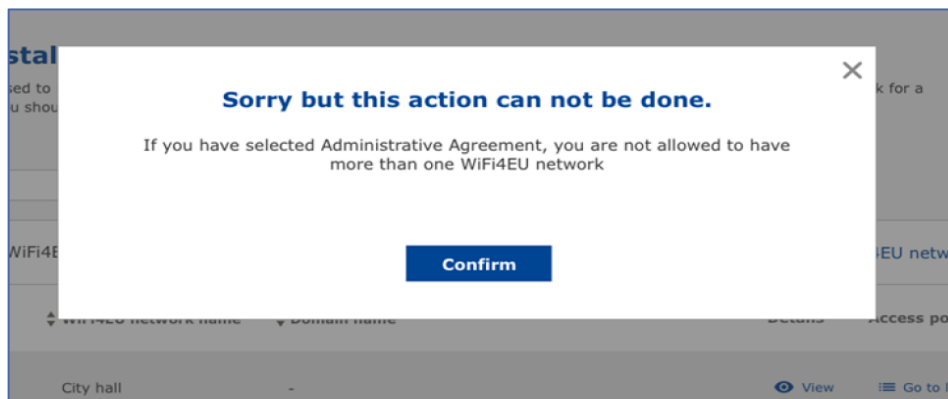

Knappen "Installation report" (installationsrapport) er tilgængelig, når IBAN er blevet knyttet til kommunen. Klik på "Installation Report"-knappen og opret et nyt net:

The screenshot shows the WiFi4EU Portal interface. At the top, there is a navigation bar with 'My registration(s)', 'My installation', and 'Registered Wi-Fi installation companies'. The main content area is titled 'Request for installation by Municipalities'. Below the title, there is a text box explaining that as a Wi-Fi installation company, users can provide bank account information at any time. The form contains several fields: 'Country' (set to 'Italy'), 'Municipality' (with a dropdown for 'Municipality Name'), 'Date received' (set to '00/12/2020 11:29'), 'Bank account details' (with 'IBAN: xxxxxxxxxx' and 'Selected on: /12/2020 See details'), and 'Installation report confirmation' (with an 'Installation report' button). At the bottom, there is a 'Total records: 1' and a pagination control.

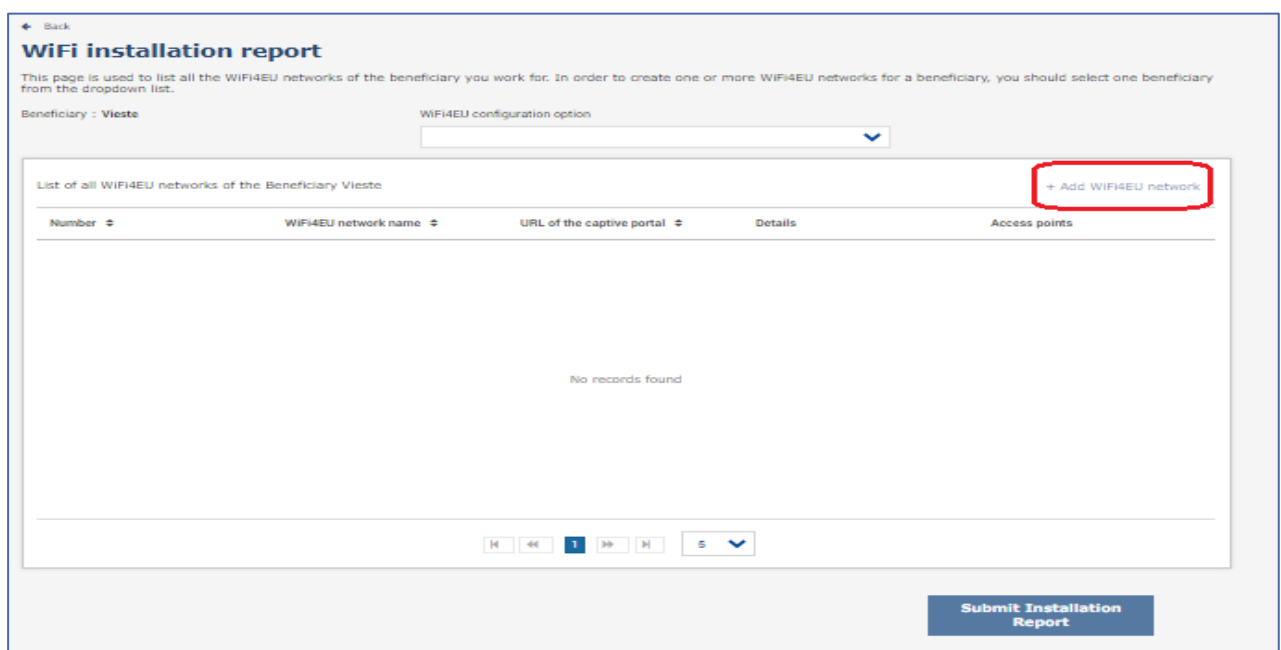

Vælg som udgangspunkt "Configuration according to Grant Agreement" (Konfigurer i henhold til tilskudsaftalen). Vælg **kun** "Configuration according to Administrative Agreement with # ITALIA", hvis netværket allerede fungerer med "wifi.italia.it" SSID, som er omfattet af en særskilt aftale:

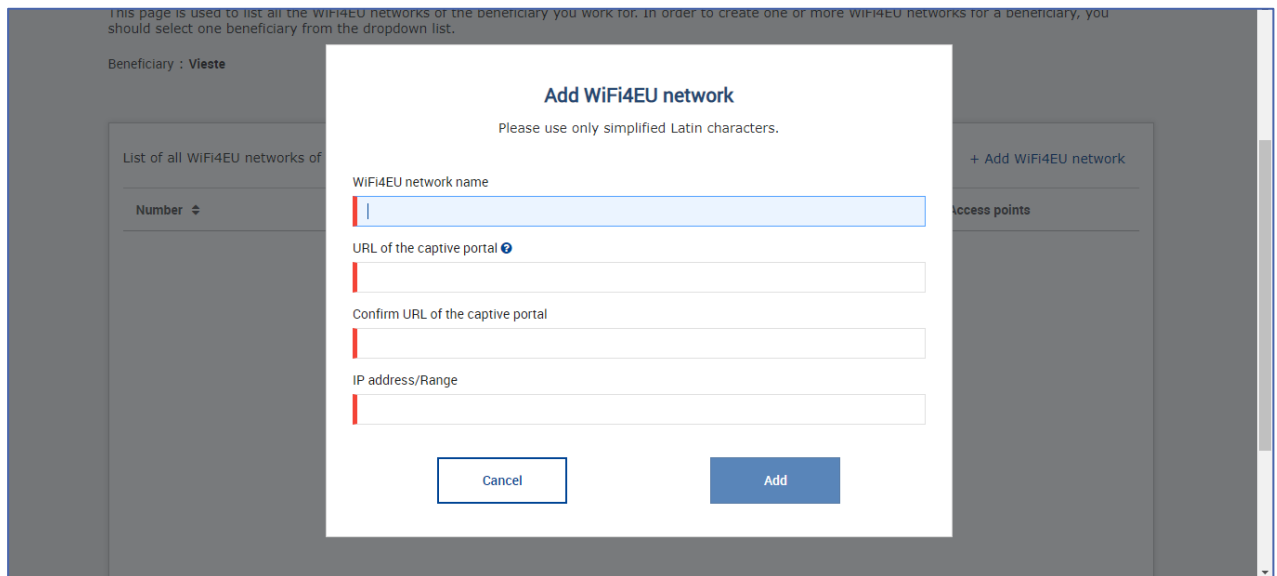

Hvis du vælger "Configuration according to Administrative Agreement with # ITALIA", kan du kun opsætte og angive oplysninger for et wi-fi-netværk i portalen, og alle adgangspunkter skal være forbundet til dette netværk:

Klik på "Add WiFi4EU network" (Tilføj WiFi4EU-netværk):

Udfyld de obligatoriske oplysninger:

Startportalens URL skal have et klassisk domænenavn (ikke et IDN-domænenavn) og må kun bestå af følgende tegn:

- tegnene "a - z"
- tallene 0 til 9
- bindestreg (-)
- kolon (:)
- punktum (.)
- skråstreg (/)

URL'en må ikke begynde eller slutte med bindestreg, kolon, punktum eller skråstreg. URL'en må ikke have mere end 255 tegn.

Angiv IP-adressen eller IP-adresseintervallet for installationsstedets captive portal i feltet "IP address / Range" (IP-adresse/interval). Der er ingen begrænsninger på IP-intervallets dimensioner. IP'ernes interval

i WiFi4EU-portalen skal angives i CIDR (Classless Inter-Domain Routing) notationssystemet.

Efter tilføjelse af et nyt WiFi4EU-netværk har wi-fi-installationsvirksomheden mulighed for at se netværksoplysningerne (via "view"-knappen (vis)) eller klikke på "Go to list" (vis liste) for at tilføje de tilhørende adgangspunkter i netværket:

The screenshot shows the 'WiFi installation report' page. At the top, there is a 'Back' link and a title. Below the title is a description: 'This page is used to list all the WiFi4EU networks of the beneficiary you work for. In order to create one or more WiFi4EU networks for a beneficiary, you should select one beneficiary from the dropdown list.' The beneficiary is set to 'Vieste'. There is a dropdown for 'WiFi4EU configuration option' with the selected value 'Configuration according to Grant Agreement'. Below this is a table listing all WiFi4EU networks for the beneficiary. The table has columns for 'Number', 'WiFi4EU network name', 'URL of the captive portal', 'Details', and 'Access points'. There is one entry with number '1', name 'Municipality Name Wifi4EU', and URL 'xxx.com'. A 'View' button is next to the entry. To the right of the table is a '+ Add WiFi4EU network' button. Below the table is a pagination control showing '5' items per page. At the bottom right of the page is a 'Submit Installation Report' button.

Klik på "view"-knappen for at finde netværkets univrselle unikke identifikator (UUID). Brug netværkets UUID for at parametere den captive portals JavaScript (kodelykke):

The screenshot shows the 'WiFi4EU network details' page. At the top, there is a 'Back' link and a title. Below the title is a description: 'This page is used to see the detail of the WiFi4EU network of the beneficiary that you have selected.' The beneficiary is set to 'Vieste'. Below this is a table showing the details of the selected network. The table has two columns: the field name and the value. The fields are: 'Number' (1), 'WiFi4EU network name' (Municipality Name Wifi4EU), 'URL of the captive portal' (https://www.xxx.com), 'Universally Unique Identifier (UUID)' (FxZWRqL8KMuaIuUCnLKXf), and 'IP address/Range' (111.111.111.11). Når et nyt adgangspunkt tilføjes til WiFi4EU-netværket, skal de følgende oplysninger for punktet angives, som det fremgår ovenfor:

- a) Lokationstype
- b) Navn på lokation
- c) Længde- og breddegrad for geolokation
- d) Udstyrstype
- e) Udstyrsmærke
- f) Udstyrsmodel
- g) Udstyrsserienummer
- h) MAC-adresse 2.4 GHz
- i) MAC-adresse 5.0 GHz.

MAC-adresserne for 2.4GHz og 5GHz skal være forskellige. MAC-adressen vist på adgangspunktet er måske det eneste (dvs. adressen på den primære grænseflade), men i realiteten har adgangspunktet flere MAC-adresser, som svarer til hver enkelt netværksgrænseflade. Når en wi-fi-installationsvirksomhed er blevet udvalgt af en kommune, skal virksomheden angive sine bankoplysninger (under "Bank account" (bankkonto) på siden "My registration" (Min registrering) på WiFi4EU-portalen for den konto, hvor den ønsker at modtage betalingen. De relevante bilag skal også uploades.

De angivne bankoplysninger og vedhæftede bilag valideres gennem flere former for kontrol af Kommissionens tjenestegrene. Wi-fi-installationsvirksomheden informeres derefter via e-mail om den vellykkede validering, så snart alle kontroller er blevet gennemført med tilfredsstillende resultat.

Hvis der er behov for yderligere oplysninger for at færdiggøre valideringen, vil wi-fi-installationsvirksomheden blive kontaktet via e-mail. Wi-fi-installationsvirksomheden kan også se den aktuelle status inde på siden "My registration" (Min registrering) inde på portalen.

Hvis wi-fi-installationsvirksomhedens bankoplysninger ikke valideres (som beskrevet ovenfor), vil wi-fi-installationsvirksomheden ikke kunne indsende installationsrapporten. Der vil komme en besked, når installationsrapporten indsendes, hvis proceduren ikke fuldføres og rapporten ikke vil blive sendt til kommunen:

Når wi-fi-installationsvirksomheden har indsendt installationsrapporten, informeres kommunen via WiFi4EU-portalens automatisk pr. e-mail og anmodes om at kontrollere den indsendte rapport samt bekræfte, at installationen er fuldført og opfylder de tekniske krav, der er fastlagt i bilag I til standardtilskudsaftalen.

## KOMMUNENS GODKENDELSE AF INSTALLATIONSRAPPORTEN - ANMODNING OM REVISION

### GODKENDELSE AF INSTALLATIONSRAPPORTEN

Efter kommunens godkendelse er det ikke længere muligt at redigere eller foretage ændringer i installationsrapporten.

Den godkendte installationsrapport stilles derefter til rådighed for WiFi4EU-teamet, som påbegynder verifikationen af overensstemmelseskontrollen. Hvis det sidste trin er korrekt, udbetaler Kommissionen kuponens beløb inden for 60 dage. Hvis ikke, vil kommunen modtage en meddelelse om de forskellige mulige tekniske problemer med WiFi4EU-netværkene.

Knappen "Confirm network installation" (bekræft netværksinstallationen) er tilgængelig, når wi-fi-installationsvirksomheden har indsendt installationsrapporten:

### My voucher

As a selected applicant, you need to: 1) electronically sign your Grant Agreement and wait for the countersignature in order to receive the WiFi4EU voucher; 2) select the Wi-Fi installation company with whom you have a contract for the installation of the Wi-Fi hotspots, and 3) once the Wi-Fi hotspots have been installed, confirm the installation to declare the successful operations of your local WiFi4EU network.

For each municipality, please do the following:

### Installation confirmation

I hereby confirm that the installation site WiFi4EU network(s) are completed and fully operational for the beneficiary Brussels, in full compliance with all technical requirements as specified in the Grant Agreement signed between the beneficiary and the European Commission Services. This action will inform the WiFi4EU team and will trigger either the approval or the rejection of my installation report by the beneficiary.

- The WiFi4EU network(s) have been installed on site and are up and running.
- The WiFi4EU network(s) installed comply with all the requirements of the grant agreement and the call conditions.
- The WiFi4EU network(s) have been installed in a location where no other free public or private Wi-Fi of the same characteristics, including quality, existed.
- The request for payment of the balance is full, reliable and true and is substantiated by adequate supporting documents that can be produced in the context of the checks or audits described in Article 11.27 of the Grant Agreement.

## ANMODNING OM REVISION

En kommune kan afvise installationsrapporten og give wi-fi-installationsvirksomheden mulighed for at revidere den. WiFi4EU-portalen sender en automatisk e-mailmeddelelse til wi-fi-installationsvirksomheden med angivelse af kommunens begrundelse for afvisningen. Hvis kommunen afviser installationsrapporten, får wi-fi-installationsvirksomheden mulighed for at foretage ændringer i rapporten og indsende den igen.

Hvis installationsrapporten er blevet indsendt for tidligt, bør wi-fi-installationsvirksomheden bede kommunen om at afvise den. Så længe kommunen endnu ikke har bekræftet installationsrapporten, kan wi-fi-installationsvirksomheden trække installationsrapporten tilbage med henblik på ændring ved at klikke på knappen "Request Revision" (anmod om revision):

## **ÆNDRINGER I INSTALLATIONSRAPPORTEN**

Under programmets livscyklus kan nogle tekniske parametre, som oprindeligt blev udfyldt i installationsrapporten, ændre sig. Wi-fi-installationsvirksomheden kan ikke ændre sådanne oplysninger, efter kommunens godkendelse af installationsrapporten.

Alle anmodninger om ændring af en godkendt installationsrapport skal indberettes til WiFi4EU-teamet via e-mail: [INEA-CEF-WiFi4EU@ec.europa.eu](mailto:INEA-CEF-WiFi4EU@ec.europa.eu).
