

# EU FAB

The COVID-19 pandemic has highlighted the need for Europe to be better prepared for **future health emergencies**.

The **Health Emergency preparedness and Response Authority (HERA)**, in cooperation with the **European Health and Digital Executive Agency (HaDEA)**, is supporting Europe's world-leading industrial capacities and establishing the **EU FAB network of vaccine producers** in the EU to quickly manufacture vaccines when and where needed.

## THE EU FAB NETWORK COVERS MANUFACTURING CAPACITIES FOR:

mRNA-based vaccines

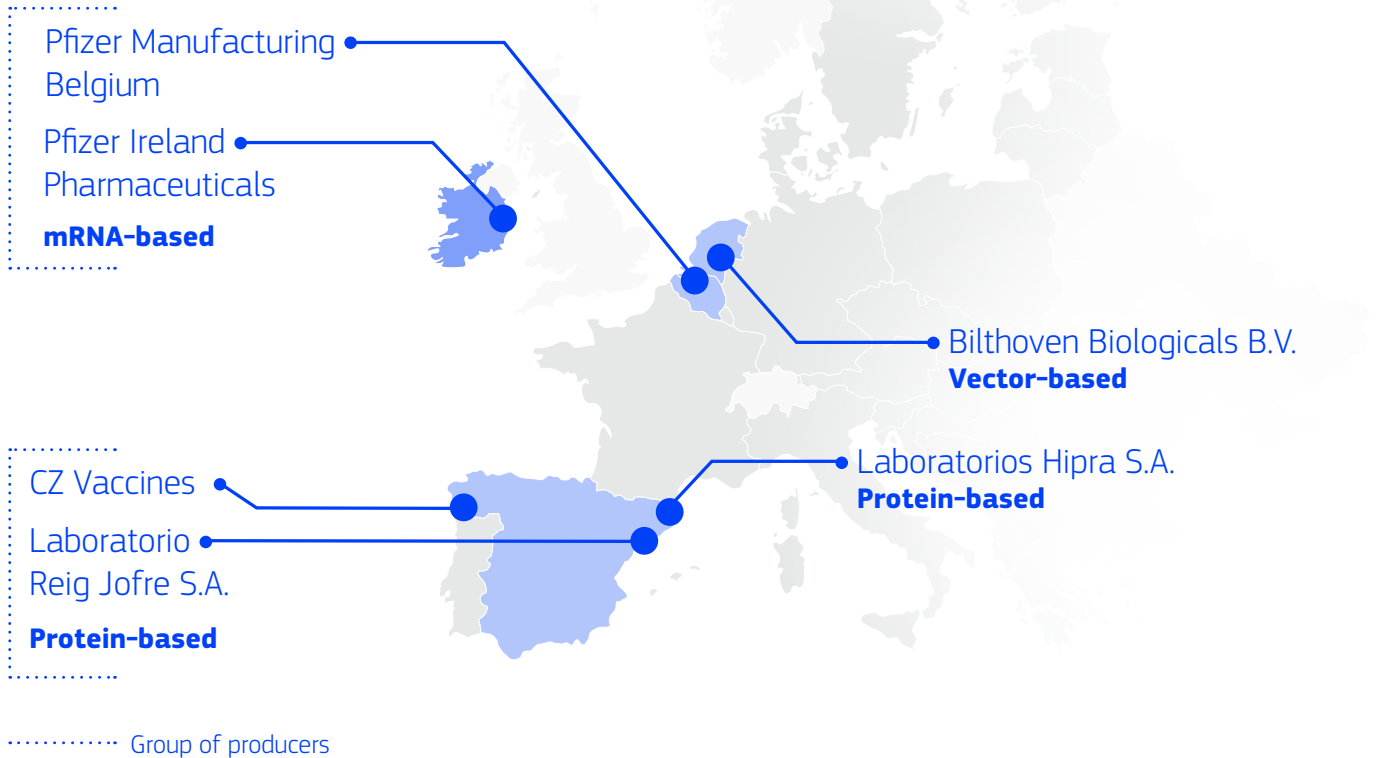

vector-based vaccines

protein-based vaccines

**#EU4Health**  
**#HealthUnion**

**EU FAB** is established through a **framework contract with six economic operators** that will reserve manufacturing capacities for **vaccines to be fully produced within the EU**:

## How will EU FAB work?
