## Data Protection Notice for Management of Learning and Development activities

The European Health and Digital Executive Agency (HaDEA) processes your personal data<sup>1</sup> in line with [Regulation \(EU\) 2018/1725 of the European Parliament and of the Council of 23 October 2018](#)<sup>2</sup> on the protection of personal data by the European Union's institutions, bodies and agencies and on the free movement of such data.

### What is the purpose of this processing activity?

**The purpose** of this processing is to provide training and development activities to HaDEA staff. In some cases, providing evidence of participation in training to HaDEA People Development Team is necessary to ensure that staff follows training required for the proper fulfilment of their tasks or for which a financial contribution is requested.

Moreover, newsletters related to Learning and Development (L&D) activities are sent to HaDEA staff using the Newsroom IT tool owned by the European Commission Directorate-General for Communications Networks, Content and Technology (DG CONNECT) (see more information on how personal data is processed via Newsroom [here](#)).

Training is a key concept according to the European Commission Internal Control Standards (ICS) 4 – Staff Evaluation and Development. Every year training priorities are developed based on the multi-annual Inter-Executive Agencies HR Strategy. These priorities depend on the core tasks of the Agency, the needs expressed by management and staff and, if applicable, by recommendations of central services. The Inter-Executive Agencies HR Strategy serves as a tool for both management and staff to ensure that the staff development is in line with the needs for fulfilment of the overall mission of the Agency, but also with individual staff career development.

Training courses are managed through the Commission tool [EU Learn](#) (see the privacy policy statement at <https://eulearn.europa.eu/ilp/pages/internal-dashboard.jsf?menuId=54308996#/?dashboardId=805652>).

In case of external training, at the request of the data subject, the personal data are managed through paper documents or scanned versions of these, which can be sent by e-mail.
